

Scoil Mhuire

ACCEPTABLE USE POLICY

Aim of the AUP

The aim of this Acceptable Use Policy is to ensure that pupils will benefit from learning opportunities offered by the school's digital resources in a safe and effective manner. Internet use and access is considered a school resource and privilege. Therefore, if the school AUP is not adhered to this privilege will be withdrawn and appropriate sanctions – as outlined in the AUP – will be imposed.

It is envisaged that school and parent representatives will revise the AUP regularly. Before signing, the AUP should be read carefully to ensure that the conditions of use are accepted and understood.

School's Strategy

The school employs a number of strategies in order to maximise learning opportunities and reduce risks associated with the Internet.

These strategies are as follows:

General

- Pupils are expected to follow the same rules for good behaviour and respectful conduct online as offline – See Code of Behaviour Policy
- Internet sessions will always be supervised by a teacher.
- Uploading and downloading of non-approved software will not be permitted.
- Virus protection software will be used and updated on a regular basis.
- The use of personal external and/or portable memory devices in school requires a teacher's permission.
- Pupils will treat others with respect at all times, observe good "netiquette" (i.e., etiquette on the internet) and will not undertake any actions that may bring the school into disrepute.

Education

- Pupils and teachers will be provided with training in the area of Internet safety.
- Pupils will be educated on the benefits and risks associated with using the internet.
- The pupils at Scoil Mhuire will be made aware of the importance of keeping their personal information private.
- The pupils will learn about the importance of informing and telling someone they trust if they feel unsafe or discover something unpleasant.
- The pupils will learn about the importance of treating ICT equipment with care, consideration and respect.

World Wide Web

- Pupils will not intentionally visit Internet sites that contain obscene, illegal, hateful or otherwise objectionable materials.
- Pupils will report accidental accessing of unpleasant material to help protect other pupils.
- Pupils will use the Internet for educational purposes only.
- Pupils will observe copyright restrictions on online learning and entertainment material.
- Pupils will never disclose or publicise personal information.
- Downloading materials or images not relevant to their studies, is in direct breach of the school's acceptable use policy.

- Pupils will be aware that any usage, including distributing or receiving information, school-related or personal, may be monitored for unusual activity, security and/or network management reasons.

School Email / Google for Education

Google for Education is currently used in Scoil Mhuire by classes from 1st Class to 6th. When using Google for Education, including Google Classroom, pupils will use approved class email accounts under supervision of a teacher or parent/guardian.

- Pupils will not send or receive any material that is illegal, obscene, defamatory, or that is intended to annoy or intimidate another person.
- Pupils will not reveal their own or other people's personal details; such as addresses or telephone numbers or pictures.
- Pupils will never arrange a face-to-face meeting with someone they only know through emails or the Internet.
- Sending or receiving email attachments is subject to teacher permission
- Pupils should not use school email accounts to register for online services such as social networking services, apps, and games.
- Pupils should be aware that school email communications are monitored by the school.

Direct Communication using Internet (Remote Learning)

Teachers in the school may choose to use a number of tools for classroom communication. Examples include Aladdin, Google Classroom, Google Meet and email. Some of these tools provide 'synchronous video opportunities' whereby a staff member directly speaks to the children live - e.g. through a webinar/online classroom or online meeting. The staff member invites pupils and their families to these meetings using a code.

The following are ground rules for online lessons:

1. All meetings will be password protected
2. All people involved in the online lessons will conduct themselves in a similar manner as though they were in a classroom having a face-to-face meeting. These will be different for the various age-groups within our school and teachers will inform the pupils of what etiquette is expected from them.
3. For the benefit of all participants, any people not complying with the agreed online lesson will be muted from the online lesson until they are prepared to and ready to re-join.
4. If teachers are using Google Meet, teachers will send an email to parents informing them of the date/time their child is invited to partake. Parental permission for the child is implied, as the links for lessons will be communicated through parents. If you do not consent to your child taking part, please let the class teacher know.
5. Parents/guardians must also agree to monitor their child's participation in any such lessons conducted on the Online Platforms.

Netiquette

Netiquette may be defined as appropriate social behaviour over computer networks and in particular in the online environment.

- Pupils should always use the internet, network resources, and online sites in a courteous and respectful manner.
- Pupils should be polite, use correct language and not harass others or provoke fights online.
- Pupils should also recognize that among the valuable content online, there is unverified, incorrect, or inappropriate content.
- Pupils should use trusted sources when conducting research via the Internet.
- Pupils should not post anything online that they wouldn't want parents, teachers, or future colleges or employers to see. Once something is online, it is out there – and can sometimes be shared and spread in ways that were never intended.

School Website – www.smclon.com

- The website will be regularly checked to ensure that there is no content that compromises the safety of pupils or staff.
- The publication of student work will be co-ordinated by a teacher.
- Pupils' work will appear in an educational context on Web pages.
- The school will endeavour to use digital photographs, audio or video clips focusing on group activities.

- Personal pupil information including home address and contact details will be omitted from school web pages.
- The school website will avoid publishing the names of individuals in photographs.
- The school will ensure that the image files are appropriately named – will not use pupils' names in image file names or ALT tags if published on the web.
- Pupils will continue to own the copyright on any work published.

Use of Electronic Communication Devices/ Mobile Phones/Smart Devices including Smart Watches

- Pupils' personal electronic communication devices/mobile phones/smart devices (including smart watches) may not be in use or in view on the school premises (buildings/grounds) during the school day or during after - school activities.
- These devices must be switched off and stored safely and securely in pupils' school bags for the duration of the school day. Where such devices cannot be switched off (not on silent/school mode) they will not be allowed in school.
- Pupils are not permitted to use electronic devices such as mobile phones or smart watches as cameras/recording devices under any circumstances in school, on school trips or during extra-curricular activities.

Cyberbullying

Bullying is repeated aggression, verbal, psychological or physical conduct by an individual or group against others. Bullying is always wrong and is unacceptable behaviour which should never be overlooked or ignored.

Cyberbullying refers to bullying which is carried out using the internet, mobile phone or other technological devices. Cyberbullying generally takes a psychological rather than physical form but is often part of a wider pattern of 'traditional' bullying. It can take the form of sending nasty, mean or threatening messages, emails, photos or video clips, silent phone calls, putting up nasty posts or pictures on a message board, website or chat room, saying hurtful things in a chat room, pretending to be someone else in a chat room or message board or text message and saying hurtful things, or accessing someone's accounts to make trouble for them.

- Any form of harassment using electronic devices, commonly known as cyberbullying is prohibited and will not be tolerated.
- Pupils are encouraged to report an incident or any communication that constitutes cyberbullying to the school or any member of staff.
- The school will take any report of cyberbullying seriously and will investigate credible reports immediately.
- Pupils who make a report are requested to preserve evidence of cyberbullying, e.g. a screenshot or a copy of an email, text message, picture or any other electronic form.
- Staff will take appropriate action and will bring it to the attention of the principal when pupils report an incident of cyberbullying.
- Staff will attempt to preserve evidence of the cyberbullying and will submit any evidence to the principal.
- Bullying will not be tolerated and parents will be expected to co-operate with the school at all times in dealing with instances of bullying in accordance with the school's Anti-Bullying Policy.

Sanctions

Misuse of the Internet, including bullying or discrediting others, may result in disciplinary action, including written warnings, withdrawal of internet access privileges and, in extreme cases, suspension or expulsion (as outlined in the Code of Conduct booklet). The school also reserves the right to report any illegal activities to the appropriate authorities.

Stop Cyber Bullying

Tips for Parents

It is very important that you listen to your child when they come to you with an issue relating to bullying.

Encourage your child to be careful about disclosing personal information.

Being conscious of when and where it is all right to reveal personal information is vital. A simple rule could be that the child should not give out a name, number or picture without your approval. Never give

out personal information (PIN) etc. online. Everyone is a stranger. Don't talk to or accept anything from strangers.

Remember that the positive aspects of the Internet and Mobile Phones outweigh the negatives. The Internet is an excellent educational and recreational resource for children. Mobile phones can be a source of comfort and support for children and parents.

Know your child's net use.

To be able to guide your child with regard to Internet use, it is important to understand how children use the Internet and know what they like to do online. Let your child show you which websites they like visiting and what they do there.

Encourage good Netiquette

Netiquette is the informal code of conduct for the Internet. These are informal ethical rules for how to behave when relating to other people on the Internet and include: being polite, using correct language, not yelling (writing in capital letters), not harassing others or provoking fights online. You should not read other's email or copy protected material.

Some Tips for Young Pupils.

- Do trust your instincts. If it doesn't look or feel right it probably isn't. If you find something online that you don't like or makes you feel uncomfortable, turn off the computer and tell an adult.
- Do not keep this to yourself! You are NOT alone! Tell an adult you know and trust!
- Do not delete messages from cyber bullies. You don't have to read it, but keep it, it is your evidence.
- Don't send a message when you are angry. Wait until you have time to calm down and think. You will usually regret sending a "Flame" (angry) to someone else. Once you've sent a message, it is very hard to undo the damage.
- Don't open messages from people you don't know.
- Don't reply to messages from cyber bullies! Even though you may really want to, this is exactly what the cyber bullies want. They want to know that they've got you worried and upset. They are trying to mess with your mind and control you, to put fear into you. Don't give them that pleasure.

What to do if you are cyber bullied.

- Tell your parents or a trusted adult.
- Do not retaliate - this will only feed into the cyber bully and could make other people think you are part of the problem.
- Try to ignore the cyber bully.
- Block the bully from your site.
- Save the evidence. Keep a record of the bullying messages but do not reply to any bullying messages.
- Show or give the record of bullying messages to your parents.

If the cyber bullying persists or gets worse, your parent or trusted adult can:

- File a complaint with the website, ISP, or Mobile Phone Company. There is usually a link on the website's home page for reporting concerns.
- Contact the Gardaí if the cyber bullying contains any threats.

Scoil Mhuire Rules for Responsible Internet Use

The school has tablets and chrome books with Internet access to help our learning. These rules will help keep us safe and help us be fair to others.

Using the Computers:

1. I will not access other people's files;
2. I will not use memory sticks, cameras, iPads, iPads, laptops, mobile phones without the permission of the teacher;
3. I will treat all of the computer equipment with respect.

Using the Internet:

1. The use of the Internet is for educational purposes only;
2. I will not use the Internet, unless given permission by a teacher;
3. I will report any unpleasant material to my teacher immediately because this will help protect other pupils and myself;
4. I understand that the school may check my computer files and may monitor the Internet sites I visit;
5. I will not complete and send forms without permission from my teacher;
6. I will not give my full name, my home address or telephone number when completing forms or while visiting websites;
7. I will not upload or download non-approved material.

Using E-mail:

1. I will ask permission from a teacher before checking email;
2. I will immediately report any unpleasant messages sent to me because this would help protect other pupils and myself;
3. I understand that e-mail messages I receive or send may be read by others;
4. The messages I send will be polite and responsible;
5. I will only email people I know, or my teacher has approved;
6. I will only send an email if given permission and when it has been checked by a teacher;
7. I will not give my full name, my home address or telephone number or that of anyone else;
8. I will not send or open attachments without the permission of the teacher.

I understand that failure to comply with the rules will mean withdrawal of Internet privileges.
